—B. F. MASSEY, Esq., Democratic Elector for this Electoral district, will address the people of Benton county at the Court-house on FRIDAY NEXT, the 14th inst.

Kentucky U. S. Senator.—The Governor of Kentucky has appointed the Hon. Thomas Metcalf to fill the vacancy in the U. States Senate occasioned by the resignation of the Hon. Jno. J. Crittenden. The seat was offered to Mr. Clay, who declined the appointment.

—Maj. C. F. Jackson, (dem.) has been put in nomination for State Senator, from the counties of Howard and Charleston. Gen. John B. Clark is the Whig candidate. This will doubtless be an interesting canvass, as they are both ingenious and able men, and the master spirits of their respective parties in that Senatorial district.

—The Metropolitan of the 4th says: "There will be a special session of the Circuit Court of the United States for the District of Missouri, held at Jefferson City on the 28th of August next, for the trial of Abel Armstrong—alias John Jones and James Smith, who are charged with the murder of James Baldwin, on the road leading from Independence to Santa Fe, in March 1847.

—The St. Louis Weekly Union appears among our exchanges this week, in an entire new dress, "manufactured to order" by A. P. Indew & Co., St. Louis, by which the Union, always a handsome paper, will compare favorably in point of general appearance and mechanical execution, with the best papers of the day. The price of the Weekly to single subscribers is \$3 00—to clubs of ten, it will be forwarded to any part of the country at \$2 00 a year. The Campaign Union, from this time until the close of the Presidential campaign, will be sent to clubs of ten for the low price of fifty cents. Send on your bits, and get four times their worth in a choice variety of valuable reading matter, together with the official vote of all the States, to be given in the last No., which will of itself be worth the subscription price.

—The Hon. W. P. Hall and Jas. S. Green have our thanks for public documents forwarded to this office.

Striped Pigs.—Our facetious friend of the Glasgow News, after noticing the nominations of Cass and Butler by the Baltimore Convention, Taylor and Fillmore by the Philadelphia Convention, and Van Buren and Dodge by the Utica Convention, and after making some pretty sharp strictures upon the rottenness of parties, and the trickery of party leaders and wire pullers, proposes the name of Henry Clay for President, and Thomas Corwin for V. President, and then winds up by saying, "as we are an independent neutral, and our office is somewhat divided in sentiment, we will announce its vote."

"We are, of course neutral, and shall hold the balance of power, our foremost will vote for Cass and Fillmore, our 'first luff' for Van Buren and Taylor, and our 'devil' for Tom Corwin!"

—We should say that our friend Foster's establishment was very striped, nevertheless we are bound to give in our humble belief to his assertion "that thousands of the 'sovereigns' in voting for the 'regular nominee' of the party, support a man, the half of whose principles, (if he has any at all,) they know nothing of." We don't say this of one party, but of all parties. But as we, too, are independent neutrals, we may be accused by some, of assuming forbidden ground—unlike our friend of the News, however, we have no new candidate to bring forward, but "desiring to see a fair race, with men of all sorts of principles, in the field," or perhaps more correctly speaking with no principles at all, if the people so will it, let us have a sweepstake race of it, and the foremost man take the spoils. By this means all old party distinctions will be done away, and we can then "open a new set of books," and begin anew.

The Fourth.—The recent anniversary of our National Independence was permitted to pass by almost unnoticed by our citizens. We believe there were a barbecue or two got up at different points in the county, which were attended by a number of persons from town. The most appropriate way of celebrating this day that we have heard of, was done by a couple of our young friends over the river, by plighting their truth and swearing eternal constancy to each other at the altar of Hymen. This is the most rational and sensible mode of celebrating a great day, and hope there may be others of our acquaintance who observed it in like manner.

Another Richmond.—Ex-President Van Buren of New York, has been nominated by what is termed the Barn-burners, a faction of the New York democracy, and a few "impracticables" from some half dozen other States, for the Presidency, and has accepted the nomination—making a third set of candidates for the highest and most honorable office in the world! Hon. Henry Dodge, of Wisconsin, was nominated for the Vice Presidency on the ticket with Mr. Van Buren.

New Postoffices.—Two new post offices have been established on the route between this place and Buffalo—one bearing the name of Turkey Creek, and Jos. Hooper appointed Postmaster. The other is called Mount View, and Robert B. Tucker appointed Postmaster.

Shut.—We have it by rumor that a Mr. Horrell, a lawyer of Waynesville, in Pulaski county, shot a Dr. Dellinger, some ten or twelve days ago, the shot proving fatal almost instantly. We could learn none of the particulars, further than that a lady is concerned in the matter.

LATER FROM CHINA.—The New York Evening Post has received the "Friend of China," dated March 23, from which the following items are extracted:

The new Governor, Mr. Bonham, had arrived at Canton on the previous Monday, and was received by Sir John Davis and his officers with the usual honors. Much good, it is hoped, will result from this rule.

On the 8th of March, an attack was made on three Missions, Messrs. Medhurst, Lockheart and Muirhead, by a number of Chinese sailors, (junk men,) who knocked the missionaries down, and beat them in a most barbarous manner. The Chinese authorities promised to punish the assailants.

These junk-men are a portion of a class who have, by a recent change in the mode of transporting the tribute grain to Peking, been thrown out of employment; and they have resorted to plunder to sustain themselves, as well as to intimidate the government.

The British Consul at Shanghai, has taken up the matter officially, and will investigate it thoroughly.

MURDER.—The St. Joseph Gazette, of the 23d inst., says:

On Monday night last between the hours of 10 and 11 o'clock, a man by the name of Gibson went to the residence of Dr. Jones, at the Rockhouse Prairie in this county, and made use of very offensive and abusive language to the Doctor and his lady, whereupon he was desired to quit the premises. Gibson refusing, the Doctor followed him on the porch, when Gibson caught him by the collar and inflicted a mortal wound across the abdomen, which terminated in death the next evening. The Doctor was a good physician, and very much respected in this county. The murderer is still at large, but the persons in pursuit are so numerous, that we earnestly hope he is by this time arrested.

A reward of \$100 for the arrest of the murderer, is offered by Mr. Robt. Jesse, administrator of the estate of Samuel L. Jones, dec'd.

FROM MEXICO.

The arrival at an early hour Thursday morning, of the steamer Magnolia, places us in possession of files of New Orleans papers of the 23d inst. From the Picayune of that date, we cut the following, as containing the latest intelligence from the late seat of war.—St. Louis Organ.

"The steamship Palmetto, Capt. Smith, arrived at an early hour this morning from Vera Cruz, having sailed on the 18th inst.

All the troops were expected at Jalapa on the 21st. During the passage of the Palmetto, four men, belonging to the 1st Michigan Volunteers, died, and one was lost overboard.

Mr. Sevier was expected at Vera Cruz on the 19th inst.—Upon his arrival, the Custom House at Vera Cruz would be delivered up to the Mexican authorities.

Our Commissioner, Mr. Sevier, left the capital on the 12th for Vera Cruz.

Gen. Arista took the oath of office as Secretary of War, on the 11th inst. at Mexico.

If we may rely upon the Mexican papers, the several arrests announced in our paper of Wednesday morning grew out of an actual conspiracy in the city of Mexico, to overthrow the government. It was discovered in time, and the ringleaders were arrested before their plans were consummated.

The ministry of Pena y Pena and the deputies and Senators who voted for the peace, were the intended victims of the conspiracy.

The plans of the conspirators in Mexico had ramifications in San Louis and Agnas Calientes, and even Zacatecas, Guanajuato, Jalisco and Michoacan.

The late attempts of Paredes and Jarauta, already mentioned by us, are recognized as a part of the revolutionary scheme.

Both houses of the Mexican Congress suspended their session on the 12th inst., and the members expected to reach the city of Mexico shortly thereafter, almost in a body.

The desperate attempt of father Jarauta was considered as entirely thwarted, but he has been working under the patronage of Paredes, and may yet share his good fortune, though the sentiment of the country appears to pronounce against him.

A regiment of the line was about to move towards Huejutla to put down the Indian disturbances in that section of the country.

President Herrera was in Mexico on the 9th instant, and apparently in very good health.

Our correspondence by this arrival has not yet come to hand, and we have had but a few moments to glance at our Mexican files. In our next we will give the whole body of the news received—if there be any.

COLONIZATION.

Our attention has been drawn to a letter in the last Colonization Herald, written to Elliott Cresson, Esq., of Philadelphia, by Martin F. Tupper, of England, under date of 20th April last. After some remarks, personal and complimentary to Mr. Cresson, the writer adds the following:—

—Organ.

With respect to slavery and its cure, it seems to me, unless I am deceived by fair appearances, that your society has "hit the blot." We, with the best intentions, have utterly blundered the whole business; we have ruined our West Indies by unprepared emancipation, and waste millions annually on the absurdity of attempting to blockade a continent; moreover, through our ill-judged efforts, the horrors of the passage are increased ten-fold, and poor Africa groans under the additional burdens laid on her by the dull zeal of her would-be liberator of England.

The idea of re-establishing the ransomed slave in his own country under a free self-government, appears to me to combine all the requirements of probable success. May America, our child, succeed where her parent's effort is a failure.

Importations.—Our importations are increasing, even upon those of last year, when they were known to have been large. The value of merchandise brought to New York during the first nine days of June exclusive of those warehouses, is \$2,055,672—making the excess this year, \$270,530, compared with last year, and an excess of \$321,015 compared with the year previous.

The Cholera.—Eight months ago, the Asiatic Cholera had reached Russia in its westward march, and it was greatly feared that it would spread over Western Europe, as in 1832, and then cross to the U. States. A kind Providence has averted the calamity, and the prospect is that what ever remains of the disease in Russia, will spend itself there. For this we cannot be sufficiently grateful.—Journal of Commerce.

A Cake of native silver, dug from a vein belonging to the Lake Superior Company, Eagle river, has just been assayed at the U. S. Mint. The weight of the cake was 6 lbs. 10 oz, avoirdupois, and it yielded \$118 57, hard money.

Letter from Port au Prince.—Captain Seales, on the brig Allen King, arrived at New York on Sunday night, in 13 days from Port au Prince, reports that the Haytiens were still fighting. A report was received from Port au Prince previous to his leaving that port, that a battle had been fought, and a large number of slain on both sides.

It was not mentioned who were the victims, but if Soulongne has been vanquished, his power is at an end. Capt. S. reports all kinds of business dull.

The Indians.—The Choctaws and Cherokees may yet form an independent State in our Union. According to the Rev. Mr. Treat's report of his late visit among them—at a monthly missionary meeting in Boston, on Sunday evening—they bid fair to become at least quite as worthy of the fellowship as some who now enjoy it. The former are now expending \$30,000 annually from their national funds, on boarding schools, and their churches number 800 members. Nor are the latter much behind in the progress of civilization. They have a well administered government, orderly churches, two high-schools and other means of social and moral improvement.

New Orleans Mint.—The coinage at the Mint in New Orleans, to the month ending May 31, was \$7,500 in gold, and \$60,000 in silver.

THE FLOWER OF LIFE.—There is nothing in which a mother can have more interest—in which the feelings are more deeply imbued, than in the smile and prattle of the cherub-cheeked infant. The beauties of nature are more than surpassed in the angelic smile of the sleeping babe. It is Innocence and Peace, blended and personified. Who, then, would not risk all—yes, loose all, to preserve the health and save the life of the "Father's pride—the Mother's joy?"

The sickness of a child increases beyond all other causes, the cares and anxieties of parents: the death of the infant rends the heart of the mother—for what love is like that of a mother's love? In nine cases out of ten, the diseases of children are directly or remotely produced by Worms. Dr. J. M. Martien has proved himself the child's friend and the mother's benefactor, in the preparation of his never-failing Worm-Powders. Countless numbers of innocent children might be saved yearly, to a blessing to their parents and the world, by a timely use of this invaluable medicine. They are a certain remedy, to expel worms, cure cough, croup, whooping-cough, measles, infantile fevers of every grade, diseases of the lungs in children and adults, palpitation of the heart, bowel complaints and many other diseases with which childhood is afflicted. Do not permit your incredulity to lose your child.

A golden summer life—And ne'er regret the solemn vows, That made them man and wife.

May blended love and joy divine, Flow free from Hymen's throne, And sweetly shed its genial beam, O'er these—th wedded ONE.

May rays of hope and tranquil peace, E'er guide their wandering feet—And solace give, that they make Their untrod journey sweet.

Married.—In the Shawnee Bend, in this county, on Tuesday evening last, 4th inst., by Rev. Mr. Smith, Mr. WILLIAM BROWDER to Miss SARAH ELIZABETH—only daughter of Mr. James M. Heddleston, all of this county.

The Cake received, and the blooming bride will accept our thanks for her kind remembrance of the printer. May she and the chosen one of her heart live to enjoy many returns of a two-fold anniversary—the 4th of July and their wedding day.

Dr. Bragg's Pills Triumphant!

Further Evidence—Great Excitement and Panic amongst the Calomel Doctors—Disastrous consequences of the use of Mineral Medicines—Timely intervention of Indian Queen Vegetable Sugar Coated Pills to save a whole neighborhood from the awful ravages of that fell destroyer, Disease, in the forms of Ague, Bilious, Congestive and Typhus Fevers—Read and be convinced!

VAN BUREN, Ark, April 15, 1848.

Dr. BRAGG—Dear Sir: During the past summer and fall, the various forms of bilious Fever were very prevalent and often fatal in this section of country. Our worthy non-such physicians, puffed up with pride and vain conceit, persisted in their antiquated practice with that universal panacea, calomel, with such unbounded success, that one or two, panic-struck, scampered off and left their patients with nature and her ineffectual efforts to repair the mischief they had done. In one family, four cases resulted in death, in the short space of four days; in some cases three or four days after the exhibition of calomel, great prostration, tympanitic condition of the bowels were the result of this heroic treatment, and to prevent so their weeping friends, a post mortem examination would reveal the fact. After finding their practice altogether ineffectual, they came to the wise conclusion to give no medicine at all, but continue to visit their patients, and order laxatives as a drink, and a poultice of the same applied to the bowels; when this failed to produce any result, faith, & hearts full of apprehension, they would confess to their friends their full confidence in the application of blisters from head to foot—you may guess the result.

In this dilemma and universal consternation, one of your travelling agents passed through our neighborhood, and made liberal deposits of your vegetable medicines, and distributed pamphlets, and the "Sun," to shed a genial and benignant light upon this benighted, and apparently devoted land. The manna sent to the Children of Israel, in the wilderness, was not hailed with more hearty thanks than were your health-restoring Pills in this awful crisis. The people were prepared to receive them, or any thing that promised them relief from their apparently impending fate. I have watched their progress, and the effects they produced in hundreds of cases and am happy to give my feeble testimony to their entire and triumphant efficacy, in restoring health in a few days, in every instance, when they have been taken in time, and in strict accordance to directions. Some of our physicians, whose love of truth and philanthropy triumphed over prejudice and preconceived theories, have cheerfully abandoned their calomel and lancet, and recommended your pills in all cases of bilious, intermittent, remittent, congestive and typhus fevers; and they freely acknowledge that they are almost a specific in all these diseases. Your travelling agent is anxiously looked for again, as many of your agents are out of pills, and the sickly season is approaching.

With best wishes for your success, I am truly yours,

B. GUNNINGHAM.

In the Circuit Court, March term, 1848.

James M. White,)
Lambert P. Ayres,) Assumpsit—writ of
Charles W. White,) Attachment.

vs.
William P. Smith.

NOW at this day come the said plaintiffs by their attorney, and it appearing from the Sheriff's return on the writ issued in this case, that the said defendant cannot be summoned, and that his property has been attached. Therefore it is ordered that the said defendant be notified, that the said plaintiffs have commenced an action of assumpsit against him for the sum of Four hundred and fifty-dollars and twenty-five cents, (\$454 25), that his property has been attached; and that unless he be and appear before this court at the next term, to be begun and held at the Court-house in the City of Warsaw, in Benton county, on the second Monday in September next, and plead to the action of said plaintiffs within the first three days of said next term, a judgment will be rendered against him, and his property sold to satisfy the same.

And it is further ordered, that a copy of this order be published in some newspaper printed in this State, for four weeks successively, the last publication thereof to be at least four weeks before said next term. A true copy.

THOS. J. BISHOP, Clk.
